Contractors Professional & Pollution Liability

# Product Highlights

## CPPL Contractors Professional & Pollution Liability

### About the Product

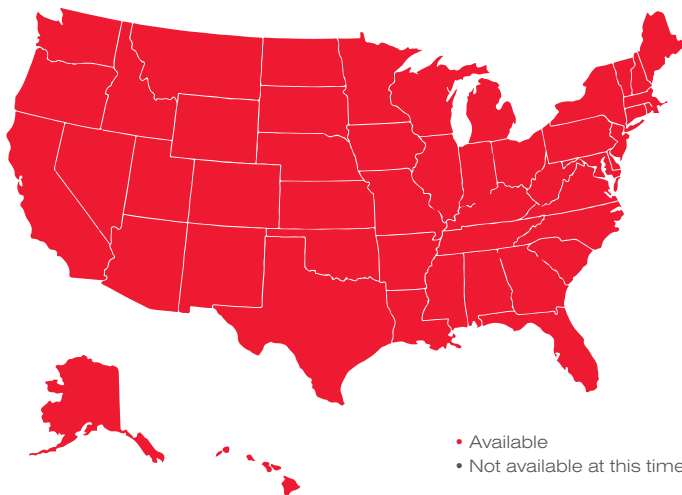

- General liability policies typically only cover property damage and/or bodily injury losses caused by ordinary construction work. Professional liability policies, however, typically cover any losses that arise as the result of professional negligence, errors or omissions. Pollution liability policies provide financial protection if pollutants are released or cause damage as a result of a contractor's work.
- **Primary coverages include** contractor professional, mitigation expense, contractor pollution, microbial, transportation and non-owned site pollution liability, pollution conditions arising from professional services and contracting services.
- **Additional coverages include** defendants reimbursement, disciplinary proceedings and reputation management, additional insured if required by a written contract (available via endorsement), automatic waiver of subrogation if required by a written contract, and softened hammer clause.

# Claim Cases

The following are three covered claim examples:

## Example One:

**Insured:** XYZ Construction Inc.

### Claim Scenario:

XYZ Construction was hired to renovate an old commercial building. During demolition, they unknowingly disturbed asbestos-containing materials, releasing asbestos fibers into the air. As a result, nearby residents and workers filed claims for bodily injury and property damage due to asbestos exposure.

### CPPL Coverage:

XYZ Construction Inc., with CPPL coverage, was protected against the third-party claims related to pollution caused by asbestos exposure. The policy covered the legal defense costs and any resulting settlements or judgments.

## Example Two:

**Insured:** ABC Roofing Services

### Claim Scenario:

ABC Roofing Services was contracted to replace a commercial roof. During the roofing project, a worker accidentally spilled a significant amount of tar and other roofing materials into a nearby river, causing environmental contamination and harming aquatic life. Neighboring businesses filed claims for pollution-related property damage.

### CPPL Coverage:

ABC Roofing Services, with CPPL coverage, had protection against the claims for pollution-related property damage. The insurance policy covered the cleanup costs and legal expenses.

## Example Three:

**Insured:** JKL Builders (Design / Build Contractor)

### Claim Scenario:

JKL Builders was overseeing a construction project that involved construction and electrical work. MNO Electrical, a subcontractor, accidentally spilled hazardous chemicals, causing soil contamination on the construction site. Additionally, before project completion, a wiring design error that had the potential to result in a claim was discovered.

### CPPL Coverage:

CPPL coverage for JKL Builders protected them against third-party claims for soil contamination and potential damages due to a design error. The policy covered the costs of cleanup, property damage and legal expenses. Also, the mitigation expense coverage part of the CPPL Policy covered the wiring design error mitigation costs
